# THE BEST PRODUCTIVITY AND FUEL EFFICIENCY

The new HYUNDAI HL940A with new engine technologies is satisfying the most strict environmental emission regulation in the world and A series in wheel loader have a number of new features that contribute to overall fuel and also production efficiency.

FUEL SAVINGS

up to **5%**  
V-type loading cycle  
(Compared to Power mode)

## Smart Power Mode **NEW**

Smart Power mode reduces fuel consumption by adjusting the engine speed in heavy load work like digging. The key point of this function is not only saving fuel with same performance as Power mode but also making good balance between traction force and breakout force.

## Hydraulic Differential Lock **Option**

Hydraulic differential lock has the advantages of both improving productivity and less fuel consumption by preventing tire slip during the operation.

## Parallel Z-bar Linkage

Newly developed parallel z-bar linkage provides perfect parallel lift function with high tilt forces.

## ICCO (Intelligent Clutch Cut Off)

By selecting of 'H-Mode' among clutch cut-off selections, ICCO will be engaged for both less power loss in torque converter and lower heat generation on brake sides.

## EU STAGE V Engine **NEW**

'Cummins B6.7' engine meeting Euro Stage V emission regulations is designed for maximum productivity and fuel efficiency.

Tier4 Final(2014)  
EU Stage-V(2019)

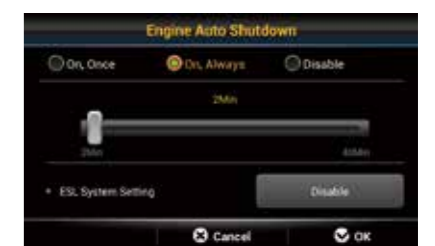

## Eco Report **NEW**

Eco report shows the wheel loader's inefficient operation status in order to improve operator's improper working habit.

## Automatic Engine Shut Down

Adjustable 'Automatic engine shut down' significantly reduces idle time, overall operating hours and fuel consumption.

## Optimized Power Matching

For maximum operational efficiency, the engine is designed to achieve high torque in the low RPM range. Change an engine rpm at peak torque to lower rpm section also.

\* Photo may include optional equipment.

# ULTIMATE DURABILITY

The true value of the HL940A, which is now far more powerful, is revealed in tough working environments. With the high-strength design structure and enduring system proven by rigorous road tests at various work sites, Hyundai wheel loaders can perform any high-load work to maximize productivity.

## Highly Durable Axle

Highly durable ZF axles provide the best performance and efficiency in any workplace.

## Sinter Brake Disc

The HL940A has a sinter disc of a new material with excellent durability to suppress generation of heat and vibration, heightening brake durability and enabling convenient maintenance with a service-friendly design.

## Hydraulic Hose

Hyundai's hydraulic hoses have twice increased durability and product life cycle over previous hoses.

## Optimized Drive Shaft

Through thorough verification, the optimized drive shaft makes the HL940A wheel loader more durable.

### Air Compressor **NEW** **Option**

Air Compressor will be used for cleaning inside the cabin and for operator self-cleaning.

### Full Sound-Proofed Spacious Cabin

State-of-the-art noise reduction technology of the HL940A ensures maximum silence (68 dB) in the same category of equipment, promising more silent and more pleasant interior space.

### Remote Door Control **NEW** **Option**

Remote door control allows operators to open the cabin door remotely. This system was developed for the convenience and safety of the operator.

### Wide Touch Screen Monitor

The seven-inch capacitive-type display (like a smart phone display) provides excellent legibility.

### Centralized Cluster

With a centralized cluster, operator can see at a glance all the states of wheel loader.

### Weighing System

The HL940A further improves work precision with additional weight calibration. The automatic/manual cumulative weighing function greatly enhances operating efficiency. Icons displaying weighing errors and the two-color weight value indication on the monitor enable accurate weighing to support efficient production management.

### Soft End Stop

When an attachment reaches at the end stroke, it gives operator enormous shock especially for Boom up. This function gives shock free operation by reducing the speed of attachment near the end stroke. It can be selected on/off through Monitor.

### Foldable Side Mirror **NEW**

Foldable side mirrors prevent damage when transporting narrow space.

### Fully Adjustable Seat and Armrest **NEW**

This suspension will be applied for minimizing an operator's fatigue. Available for electro hydraulic Control.

### Ride Control **Option**

Ride control system reduces operator fatigue and material spillage during operation. An accumulator helps to minimize shock, giving the operator a much smoother ride.

### Auto Greasing System **Option**

Auto greasing system is designed to automatically lubricate when it is needed. Uniform application of lubricant ensures that the lubrication points always have the correct amount of grease.

# EASY CONTROL AND COMFORTABLE OPERATION

The HL940A is optimized to enable operators to access accurate equipment data in a timely manner. This feature is more important in tough working environments to increase productivity while enjoying various forms of entertainment. Enjoy unparalleled satisfaction provided by infotainment of Hyundai's state-of-the-art information technology!

\*Photo may include optional equipment.

## HL940A with advanced technology ensures our safety on a construction site.

The A Series in wheel loaders are products of HCE's spirit of initiative, creativity, and strong drive. HCE engineers, who are the best in the industry, have worked tirelessly to offer a zero-defect product. The new A Series in wheel loaders reflects customers' needs in the field gleaned by thorough monitoring.

### Emergency Stop **NEW**

In an emergency, operating the Emergency Stop switch located at the bottom of the seat will shut down the engine starting.

### Seat Belt Warning Alarm **NEW**

Seat belt warning alarm allows the operator to work in a safer environment.

### Radar **NEW** Option

The Radar system can detect rear obstacles without blind spots and no distinction between day and night. Also, the warning level of the nearest obstacle is always displayed on the secondary monitor.

### AVM(Around View Monitoring) **Option**

### IMOD(Intelligent Moving Object Detection) **Option**

This is a system that is combined AVM (Around View Monitoring) with IMOD (Intelligent Moving Object Detection) and detects people around the machine and analyzes the images, which displays a warning sign on a monitor when detecting the danger. So operators can watch the surroundings in a variety of angles through the monitor and prevent the safety accident in advance.

AVM

It displays the position of people with a top view.

IMOD

A green warning sign is displayed when people move in within a 5-meters radius.

A red warning sign is displayed when people move in within a 3-meters radius

# THE ULTIMATE SAFE ENVIRONMENT

With the top priority on satisfaction of operators in terms of silence, safety and maintainability, Hyundai wheel loaders provide operators with comfortable cabin space by low-vibration, low-noise, and superior safety design. They also offer greater satisfaction by extending the replacement cycle of supplies and minimizing maintenance time and cost.

# SERVICEABILITY AND TELEMATICS

IoT, ICT, AI-based digital technologies is creating smart construction sites. Maximizes connectivity, productivity, and safety for your successful businesses.

## Hi MATE

Option

### IT'S CONVENIENT, EASY AND VALUABLE

Hi MATE Hyundai's newly developed remote management system, utilizes GPS-satellite technology to provide customers with the highest level of service and product support available. Hi MATE enables users to remotely evaluate machine performance, access diagnostic information, and verify machine locations at the touch of a button.

### WHAT IS BENEFITS

#### Increase Productivity

It helps you operate machines in efficient. You can check the difference between total engine hours and actual working hours. See how productive your machines are and plan any required cost saving solutions. Hi MATE offers working information such as working / idling hours, fuel consumption and rate.

#### Convenient and Easy Monitoring

There is nothing much to do to monitor your machines. Just log on to the Hi MATE website or mobile application. Hi MATE allows you to watch your machines whenever and wherever you are.

#### Security

Protect your machines from theft or unauthorized usage with Hi MATE. If the machine moves out of the Geofence boundary, you will get alerts.

### Unnecessary Regular DPF Cleaning Interval **NEW**

Regular ash cleaning for DPF is not necessary, only needed as indicated by fault-indicator lamp.

### ECD(Engine Connected Diagnostics) **NEW**

It supports service technician with remote diagnostics report and ensure it arrive on site with proper tools after preparing in advance.

#### We are all connected

### Fully Openable Engine Hood **NEW**

The HL940A has improved accessibility to the sealed engine room with retractable hood to allow easy cleaning and maintenance. The engine room was designed to prevent possibility of fire due to inflow of foreign materials. The fully retractable engine hood in the electric actuator opening mode also enhances maintainability of the engine room and cooling room.

### Easy Filter Replacement

With easy filter replacement, machine can be managed more easily.

### Wide Core & Fin Radiator

Wide core & fin radiator reduces clogging.

### Longer Lasting Filter

The service interval of fuel filters has been increased from 500 hours to 1,000 hours.

## CABIN

ROPS / FOPS Cabin Meet ISO 3471 and ISO 3449

## SOUND

Guaranteed noise level presented below can be differed depending on a range of factors such as operating condition, speed of a cooling fan, types of engine and so forth. Hearing protection shall be necessary if an operator is working in the improperly maintained cabin or exposed to a noisy environment by leaving doors and/or windows open.

With cooling fan speed at maximum value:	
Operator sound pressure level (ISO 6396:2008)	68 dB(A)
Exterior sound power level (ISO 6395:2008)	108 dB(A)
